The examiner in charge of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to examiner Sandra Wegert in Group Art Unit 1647.

DETAILED ACTION

The Restriction requirement of 10/1/02 (Paper 7) was reviewed by the examiner, as were the comments submitted by the Applicants (1/21/03, Paper 8). Upon further consideration, the Restriction requirement is hereby VACATED. A new Restriction requirement follows:

Election/Restriction

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 38-52, drawn to methods of making amyloid fibrils.
- II. Claim 53, drawn to an amyloid fibril.

The peptide of Invention II is related to Invention I as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the

Art Unit: 1647

process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05 (f)). In the instant case, the fibril may be isolated from its natural source or made by chemical synthetic processes unrelated to nucleation or crystallization.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, separate search requirements, and different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. 1.143)

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(i).
